

## SWE-N55L

- loop-powered indicator in a small wall case
- measurement input 4-20 mA
- optional alarm output available
- peak values detection

**SWE-N55L** is a simple and low cost digital indicator with a single 4-20 mA current input, which powers this device at the same time. Measurement input is equipped with safety circuits, saving internal electronics against overload. Device has possibilities of recalculating measured current according to few predefined transfer functions (linear, square, square root) or fully definable user characteristic (max. 20 points). Result is displayed on 4-digit red LED display, the range of the result is from -999 to 9999, with definable decimal point position. The device can be equipped with optional relay (signalisation by LED on front panel). Due to users safety requirements this output can drive a bulb lamp as well as sound signalling device but must not be used for controlling purposes. Configuration of the device can be done using IR remote controller (when input current is higher than 10 mA, what is signalled by additional LED).

Remote controller is not a part of the **SWE-N55L** and is available on request as optional equipment.

- supply from the current loop,
- detection and visualization of the peak values,
- IR remote controller as accessory.

### Typical applications

### Exemplary pin assignment

Terminals description  
(inside the housing)

Terminals description  
(version with M12 connector)

### Technical data

**Power supply:** from measurement line, min. current 3.5 mA, max. voltage drop 7V

**Display:** LED, red, 4 x 13 mm high

**Input:** current 4-20 mA, overload-protected, input current limited to about 50 mA

**Displayed values range:** -999 ÷ 9999 plus decimal point

**Accuracy:** 0.1% @25°C

**Stability:** 50 ppm/°C

**Output (option):** 1 x bistable relay 30V/500 mA, min. switching delay: about 4 sec.

**Data memory:** non-volatile memory, EEPROM type

**Operating temperature:** 0°C ÷ +50°C (standard), -20°C ÷ +50°C (option)

**Storage temperature:** -10°C ÷ +70°C (standard), -20°C ÷ +70°C (with option 08)

**Protection class:** IP 65

**Case:** wall-mounted

**Case material:** ABS + polycarbonate

**Case dimensions:** without gland/connector: 64 x 58 x 36 mm; with gland: 64 x 82 x 36 mm;

with M12 connector: 64 x 73 x 36 mm

**Weight:** with gland 108 g, with M12 connector 126 g

**Connection:** gland M16x1,5 (standard); socket M12, 5-pin + straight cable plug, 5-pin, with PG7 gland (option)

### Ordering

**SWE-N55L-11XX-0-9-XX1**

**number of outputs:**  
0  
1

#### options:

00 : no options

08 : operating temp. -20°C ÷ +50°C

0Y : M12, 5 pin

0Z : M12, 5 pin; -20°C ÷ +50°C

#### type of outputs:

0 : no output

1 : REL

### Accessories

IR remote controller
